ABOUT US

MAINHO, Maquinaria Industrial Hostelera, S.L.U., is a company that started its activities in 1981, with headquarters in Barcelona. Its vocation was, from the start, manufacturing machines intended for the hospitality industry.

The success of its products gave rise to a continuous expansion that led the company to expand its facilities in 1992, moving to the "Can Galobardes" Industrial Estate, in Canovelles, where it has been necessary, recently, to make a new expansion.

The incorporation of new products derived its attention to marketing more specialised products. Growth has been due to both quality and increasing the range of products offered, which from being exclusively aimed at small scale hospitality (snacks) now cover all needs including the largest and most complex installations.

This interest to fully respond to market demands was behind the agreement with the Italian company LOTUS to offer its products to the whole of Spain with the maximum guarantee and with the most local service.

Constant innovation, with design and manufacture of new machines incorporating the latest technology, proven quality and excellent service, have been the determinants of the satisfaction always shown by the customers.

MAINHO has numerous delegations throughout Spain and, in addition, exports to 32 countries. Hospitality industrialists can visit the stands and learn about MAINHO's products in the most important specialised fairs in Europe.

*MAQUINARIA INDUSTRIAL HOSTELERA S.L.U. reserves the right to modify the prices and designs of its products without prior notice. THIS PRICE CANCELS AND REPLACES THE PREVIOUS ONES.

*Total or partial reproduction forbidden without the express written consent of the Company.

QUI SOMMES-NOUS ?

MAINHO, Maquinaria Industrial Hostelera, S.L.U., est une entreprise qui a commencé ses activités en 1981, dont le siège se trouve à Barcelone. Sa vocation a été, dès un début, la fabrication de machines destinées à l'hôtellerie.

Le succès de ses produits a donné lieu à une expansion continue qui l'ont menée en 1992 à agrandir les installations de l'entreprise, qui ont été déplacées à la zone industrielle «Can Galobardes», de Canovelles, où il a été nécessaire de réaliser, récemment, un nouvel agrandissement.

L'intégration de nouveaux produits a dérivé son attention sur la commercialisation de produits plus spécialisés. La croissance a été due tant à la qualité qu'à l'augmentation de la gamme de produits proposés, qui est passée d'être destinée exclusivement à la petite hôtellerie (snacks) à couvrir tous les besoins, même des installations les plus grandes et les plus complexes.

Cet intérêt pour satisfaire au maximum la demande du marché, a été la raison de l'accord avec la société italienne LOTUS afin de proposer ses produits à toute l'Espagne avec la garantie maximale et un plus grand service de proximité.

L'innovation constante, avec la conception et la fabrication de nouvelles machines intégrant la technologie la plus récente, une qualité éprouvée et un excellent service ont été les facteurs déterminants de la satisfaction qui a toujours été démontrée par les clients.

MAINHO a de nombreuses délégations dans toute l'Espagne et, de plus, elle exporte à 32 pays. Les industriels de l'hôtellerie peuvent visiter les stands et connaître de plus près les produits de MAINHO dans les salons spécialisés les plus importants d'Europe.

*MAQUINARIA INDUSTRIAL HOSTELERA S.L.U. se réserve le droit de modifier les prix et les conceptions des produits sans préavis. CE TARIF ANNULE ET REMPLACE LES PRÉCÉDENTS.

*Reproduction totale ou partielle interdite sans l'autorisation expresse par écrit de l'entreprise.

Warranty

Garantie

The warranty is one year from the date of invoicing and covers faulty parts, the replacement and transportation of which will be borne by the purchaser.

The warranty does not cover the electrical parts or accessories, nor any other separable component. Any damage due to transportation or improper installation or maintenance shall not be considered as valid reasons for the purposes of the warranty.

Regular maintenance and repairs for reasons due to incorrect installation are not covered by the warranty. The warranty is valid only with respect to the first purchaser and does not provide for the replacement of the appliance.

MAINHO may carry out the repairs at the customer's site or in the factory, according to its own judgement. All transportation costs of the part or the equipment that need to be changed or repaired shall be borne by the customer. The material sent for repair must be accompanied by a duly completed return form specifying the incidents. If an inaccurate return form is received, the warranty will be cancelled.

MAINHO is not responsible for the possible delays that take place during the warranty period and does not compensate for any damage, direct or indirect, resulting from flaws or defects in the machinery provided, under the Civil Code.

Possible delays in the provision of the Service will not in any way give a right to the postponement of payments related to the equipment subject to the warranty. Delay of the payments, or the insolvency, including partial, of the customer, entails the automatic cancellation of the warranty.

La garantie est d'un an à compter de la date de facturation et elle couvre les parties défectueuses, dont le remplacement et le transport seront à charge de l'acheteur.

La garantie ne couvre pas les parties électriques, ni les accessoires, ni aucun autre composant séparable. Des dommages éventuels dus au transport ou à une installation ou à une maintenance incorrectes ne seront pas considérés comme des raisons valables à l'effet de la garantie.

La maintenance ordinaire et les réparations pour des causes qui seraient dues à une installation incorrecte ne sont pas couvertes par la garantie. La garantie n'est valable que par rapport au premier acquéreur et ne vise pas le remplacement de l'appareil.

MAINHO pourra effectuer les réparations au siège du client ou dans l'usine, à son propre critère. Tous les frais de transport de la pièce ou des équipements qu'il faudrait changer ou réparer sont à charge du client. Le matériel envoyé pour sa réparation devra être nécessairement accompagné d'un bon de retour dûment rempli, en spécifiant les incidences. Dans le cas de recevoir un bon de retour inexact, la garantie sera annulée.

MAINHO ne répond pas de possibles retards qui se produiraient durant la période de la garantie et n'indemnisera aucun dommage, direct ou indirect, comme conséquence des imperfections ou des défauts des machines livrées, sous la protection du Code civil.

Les possibles retards dans la prestation du service ne donneront droit en aucun cas à différer des paiements relatifs aux équipements soumis à la garantie. Le retard des paiements, ou l'insolvabilité, voire partielle du client, comporte automatiquement l'annulation de la garantie, y compris aux tiers.

Export

Exportation

- **Orders:** They are made on the telephone and will be confirmed in writing to the address: export@mainho.com.
- **Form of payment:** First operations: by bank transfer in advance.
- **Cash:** 2% discount at the time of accepting the pro-forma invoice, no additional discounts for early payment applicable.
- **On credit:** Until a customer is given credit, all operations shall be paid by advance payment.
- **Unpaid items:** The existence of an unpaid item will block the customer's account. Any effect not paid for on its due date must be paid immediately, including all expenses incurred.
- **Transportation:** EXWORK
- **Transport risk:** Merchandise always travels at the risk of the purchaser. In the event of damage or breakage during transportation, the claim must be made directly to the carrier.
- **Packaging:** Included in the price.
- Material protected by bubble plastic, cardboard or wooden cage.
- **Return of material:** Any return of material must be previously authorised by MAQUINARIA INDUSTRIAL HOSTELERA S.L.U. and reflected in writing, and it must be sent in its original packaging. Returns of used or manipulated material are not accepted. All charges incurred, including delivery costs, shall be borne by the customer.
- **Spare parts and accessories:** Always supplied with advance payment.

- **Commandes :** Elles sont réalisées par téléphone et seront confirmées par écrit à l'adresse : export@mainho.com.
- **Modalité de paiement :** Premières opérations : par virement bancaire anticipé.
- **Au comptant :** Remise de 2% lors de l'acceptation de la facture pro-forma, aucune remise supplémentaire n'étant applicable au titre de prompt paiement.
- **À crédit :** Jusqu'à la concession du crédit à un client, toutes les opérations seront réglées moyennant paiement anticipé.
- **Impayés :** L'existence d'un impayé bloquera le compte du client. Tout effet qui ne serait pas honoré à son échéance devra être liquidé immédiatement, en ce inclus tous les frais produits.
- **Transport :** EXWORK
- **Risque transport :** La marchandise voyage toujours pour compte et risque de l'acquéreur. Dans le cas de détérioration ou de bris dans le transport, la réclamation devra être faite directement à l'agence de transport.
- **Emballage :** Compris dans le prix.
- Matériel protégé par du plastique à bulles, une boîte en carton ou une cage en bois.
- **Retour de matériel :** Tout retour de matériel devra être préalablement autorisé par MAQUINARIA INDUSTRIAL HOSTELERA S.L.U. et indiqué par écrit et devra être remis dans son emballage original. Des retours de matériel usé ou manipulé ne sont pas admis. Tous les frais produits, y compris les ports, seront pour le compte du client.
- **Pièces de recharge et accessoires :** Ils sont toujours fournis avec un paiement anticipé.

Series Bras Grill

Bras Grill (PB) - Bras Grill Inox (PBI)

- Fireproof and refractory volcanic carbon grills. - Completely made of stainless steel.
- Easily removable fat collector built into the front frame.
- Gas valves with safety thermocouple.
- Batteries of fire-vitrified glazed tubular burners.

Grilles:

- Adjustable height separately on both sides.
- Standard fitted: slotted - **Optional: rod.**

- Grils à charbon volcanique incombustible et réfractaire. - Construits totalement en acier inoxydable.
- Collecteur de graisses à extraction facile intégré dans le cadre frontal.
- Soupapes de gaz avec thermocouple de sécurité.
- Batteries de brûleurs tubulaires émaillés vitrifiés au feu.

Grilles :

- Hauteur réglable sous une forme indépendante sur les deux côtés.
- En série : cannelées - **En option : à tige.**

Novo-crom + Gril (NC+SW-35) - Novo-snack + Gril (NS+SW-35)

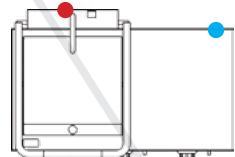

- Professional griddles fully built in 18/8 stainless steel. - **Hard chrome griddle** 15 mm thick (NC) - **Rectified griddle** 12 mm thick (NS) - Collector drawer fitted on front (Models 100: 2 drawers)
- Grill in 18/8 stainless steel, with heating plate in 18/8 stainless steel **3mm thick and power of 1000W**.
- ◆ Piezoelectric ignition. **NS:** Gas valves with safety thermocouple. **NC:** Thermostatic valves.

- Planchas professionnelles construites complètement en acier inoxydable 18/8. - **Plaque en chrome dur** de 15mm d'épaisseur (NC) - **Plaque rectifiée** de 12mm d'épaisseur (NS) - Tiroir collecteur disposé sur l'avant (Modèles 100 : 2 tiroirs).
- Gril en acier inoxydable 18/8 avec plaque chauffante en acier inoxydable 18/8 de **3mm d'épaisseur et de 1000W de puissance**.
- ◆ Allumage par piézo-électrique. **NS :** Soupapes de gaz avec thermocouple de sécurité. **NC :** Soupapes thermostatiques.

ECO-CD

ECO hard chrome gas (ECO-CD) - electric (ECOEM-CD)

ECO chrome dur gaz (ECO-CD) - électrique (ECOEM-CD)

- **Hard chrome** griddle of more than 60 microns and 12 mm thick. - Front collector easily removable for cleaning.

◆ Piezoelectric ignition. - Thermostatic valves.

⚡ Stainless steel shielded heating elements. - Thermostats with ignition switch.

- Plaque en **chrome dur** de plus de 60 microns et 12 mm d'épaisseur. - Collecteur avant à extraction facile pour son nettoyage.

◆ Allumage par piézo-électrique. - Soupapes thermostatiques.

⚡ Résistances blindées en acier inoxydable. - Thermostat avec commutateur d'allumage.

General features

Caractéristiques générales

- Built in stainless steel, polished on the inside and SCOTCH BRITE on the outside. - Ergonomic door handle.
- **Door with double glazing easy to open for cleaning.** - Reversible door with very thick, non-deformable stainless steel lock.
- Joint embedded in the cooking chamber. - Inner chamber with rounded angles.
- Inside lighting. - Guides of the trays with a gap of 70 mm between them (with 80 mm in pastry baking version, OPTIONAL).
- **TOUCH SCREEN perfected** with a more simplified, intuitive, fast and accurate programming. - **Usb Input included** (allows immediately interacting with the oven **for HACCP control**, customising recipes, import and export, upgrading software and more options). - Automatic cooking programming with the possibility of more than 300 recipes. - 3 cooking modes: **convection, steam and mixed.** - Cooking Δt delta with probe to the heart. - 6 cooking phases per recipe. - Manual cooking function. - Double speed of ventilation and auto-reversing the direction of rotation of the turbines. - Moisture control. - Simultaneous cooking of several foods, without mixing smells or flavours to optimise time in the kitchen. - Delayed ignition function, to manage cooking at low temperature (night cooking). - Pre-heating function. - Cooling function of the chamber.- **Automatic washing included (with program selection using touch panel).** - **Probe to the heart included.**

- Construit en acier inoxydable, poli à l'intérieur et SCOTCH BRITE à l'extérieur. - Poignée de la porte ergonomique.
- **Porte à double vitrage à ouverture facile pour son nettoyage.** - Porte réversible avec serrure inox d'une grande épaisseur indéformable. - Joint encastré dans la propre chambre de cuisson. - Chambre interne aux angles arrondis.
- Éclairage interne. - Guides des plateaux avec une séparation de 70mm entre eux (avec 80mm en version pâtisserie, EN OPTION). - **PANNEAU TACTILE « Touch Screen » perfectionné** avec une programmation plus simplifiée, intuitive, rapide et précise. - **Entrée USB fournie** (permet d'interagir immédiatement avec le four **pour le contrôle HACCP**, la personnalisation des recettes, importer et exporter, actualiser le logiciel et autres options). - Programmation automatique de cuison avec la possibilité de plus de 300 recettes. - 3 modalités de cuison. **convection, vapeur et mixte.** - Cuisson Δt^o delta avec sonde au cœur . - 6 phases de cuisson par recette. - Fonction de cuison manuelle. - Double vitesse d'aération et d'inversion automatique du sens de rotation des turbines. - Contrôle de l'humidité. - Cuisson simultanée de plusieurs aliments, sans mélanger ni odeurs ni saveurs pour optimiser le temps en cuisine. - Fonction d'allumage différé, pour gérer la cuisson à basse température (Cuisson nocturne). - Fonction de pré-chauffe. - Fonction de refroidissement de la chambre.- **Lavage automatique fourni (avec sélection de programme à travers le panneau tactile).** - **Sonde au cœur incluse.**

Convection (ECE-HS/ECG-HS) - Convection by humidification (EUE-HS/EUG-HS) - Convection by steam (EDE-HS/EDG-HS)

Convection (ECE-HS/ECG-HS) - Convection par humidification
(EUE-HS/EUG-HS) - Convection par vapeur (EDE-HS/EDG-HS)

Series Easy-Line

- 3 models: convection, convection/humidifier, convection/steam
- Chamber with rounded angles to facilitate cleaning.
- Analogue control, intuitive and easy to use.
- Automatic inverter of rotation direction of the turbines.
- Moisture control (in EU, ED models).
- Chamber cooling function (ED)
- Chamber lighting
- Double glazed and reversible door
- Preinstallation of probe to the core.
- Tray-holder structure with 75 mm pitch, detachable for easy cleaning.
- Possibility of installation of cooking chamber temperature display.
(only adaptable ex works)

OPTIONAL: Low speed cooking

Manual washing (wash shower)

Probe to the core

Temperature display

Reduction disc
Air inlet
 Disque réduction Entrée d'air

- 3 modèles : convection, convection/humidificateur, convection/vapeur

- Chambre aux angles arrondis pour faciliter le nettoyage.

- Contrôle analogique, intuitif et facile à utiliser.

- Inverseur automatique du sens de rotation des turbines.

- Contrôle d'humidité (dans les modèles EU, ED).

- Fonction de refroidissement de chambre (Modèles ED)

- Éclairage chambre.

- Porte à double vitre et réversible.

- Préinstallation de sonde au cœur (en option).

- Structure porte-plateaux avec un passage de 75mm, démontable pour faciliter le nettoyage.

- Possibilité d'installation d'afficheur de la température de la chambre de cuisson
(seulement adaptable en usine)

EN OPTION : Cuisson à basse vitesse

Lavage manuel (douche de lavage)

Sonde au cœur

Afficheur de la température

General features

Caractéristique générales

Made of stainless steel

Polishing finish in the chamber, Scotch-Brite on the outside

Chamber with rounded angles to facilitate cleaning

60 mm insulation, made of expanded CFC and HCFC free polyurethane

Digital control

Probe to the heart included

Reversible door (request when ordering)

Fan stop microswitch

Tray-holder structure detachable for easy cleaning

Germicide lamp (optional)

Air condensation

Automatic defrost system

Automatic end-of-cycle maintenance

Preinstallation for USB and HACCP (for the "BF" models)

Construits en acier inoxydable

Finition polie dans la chambre, Scotch-Brite à l'extérieur

Chambre aux angles arrondis pour faciliter le nettoyage.

Isolement de 60mm, en polyuréthane expansé libre de CFC et HCFC

Contrôle numérique

Sonde au cœur incluse

Porte réversible (demander au moment de la commande)

Micro interrupteur arrêt ventilateur

Structure porte-plateaux démontable pour faciliter le nettoyage

Lampe germinicide (en option)

Condensation par air

General Features

Caractéristiques générales

- Completely made of stainless steel with a Scotch-Brite external finish.
- The heating of the bowl is done by shielded heating elements with thermostatic protection.
 - Hydraulic rinse aid dispenser comes standard.
- Washing and rinsing arms made of AISI 304 stainless steel.
- Fully automatic operation with use of electromechanical keys.
- The machines are equipped with a microswitch for stopping operation in case of door opening.
 - Manufactured in full compliance with EC regulations.
- Completely made of stainless steel with a Scotch-Brite external finish.
- The heating of the bowl is done by shielded heating elements with thermostatic protection.

MB/9235

Series MB/9235 - MB/9510 - MB/9530 - MB/9530 TOP

Séries MB/9235 - MB/9510 - MB/9530 - MB/9530 TOP

- Line characterised by being small in size but maintaining a high washing capacity. - Hinged door.
- Built-in insulated boiler, built in stainless steel AISI 304L. - Equipped with electric rinse aid dispenser device. - Fully automatic operation. -Magnetic safety microswitch on door.

MB/9510: Incorporates top washing. Manual cold rinsing.

MB/9530: High-performance with double wall, better acoustic insulation and better thermal performance.

MB/9530 TOP: Equipped with a simple and intuitive Touch keyboard, which allows 5 pre-established wash times.

- Ligne caractérisée pour avoir des dimensions réduites tout en maintenant une haute capacité de lavage. - Porte abattable.
- Chaudière isolée intégrée, construite en acier inoxydable AISI 304L. - Équipées d'un doseur de brillanteur électrique. - Fonctionnement totalement automatique. -Microrupteur magnétique de sécurité sur la porte.

MB/9510 : Incorpore le lavage supérieur. Rinçage froid manuel.

MB/9530 : À haut rendement à double paroi, meilleur isolement acoustique et meilleur rendement thermique.

MB/9530 TOP: Équipés d'un clavier Touch simple et intuitif, qui permet 5 temps de lavage préétabli.

Séries MS/9451 - MS/9453 - MS/9501 - MS/9503 - MS/9503 TOP

- Small-size line but which maintains the classic 50x50 cm of the baskets. - Ideal for glasses, plates and cutlery. - Hinged door.
- Built-in insulated boiler. - Equipped with internal rinse aid dispenser device, anti-contamination valve of the water supply network: - Fully automatic operation with electromechanical keys.
- MS/9453:** Increase of the power of the boiler and of the pump. - **MS/9501:** High performance with double wall, better acoustic insulation and better thermal performance. - **MS/9503:** High-performance with double wall, better acoustic insulation and better thermal performance. Increase of the power of the boiler and of the pump. - **MS/9503 TOP:** Built-in Touch Keyboard. - Offers a remarkable load capacity. Can wash EURONORM trays.

- Ligne à petite envergure mais qui maintient les 50x50cm classiques des paniers. - Idéales pour les verres, les assiettes et couverts. - Porte abattable. - Chaudière isolée intégrée. - Équipés d'un doseur de brillanteur électrique, valve Antipollution du réseau d'adductions d'eau. - Fonctionnement complètement automatique avec des touches électromécaniques.

MB/9453 : Augmentation de la puissance du boîtier et de la pompe. - **MS/9501 :** À haut rendement à double paroi, meilleur isolement acoustique et meilleur rendement thermique. - **MS/9503 :** À haut rendement à double paroi, meilleur isolement acoustique et meilleur rendement thermique. Augmentation de la puissance du boîtier et de la pompe. - **MS/9503 TOP :** Clavier Touch intégré. - Offre une capacité de chargement remarquable. Peut arriver à laver des plateaux EURONORM.

Series

MST/9015 (DX-SX) - MST/9021 (DX-SX) - MST/9115 (DX-SX)

MST/9121 (DX-SX) - MST/9315 (DX-SX) - MST/9321 (DX-SX)

Séries

MST/9015 (DX-SX) - MST/9021 (DX-SX) - MST/9115 (DX-SX)

MST/9121 (DX-SX) - MST/9315 (DX-SX) - MST/9321 (DX-SX)

- Modular wash tunnels fully made of stainless steel.
- Perfect PREWASH area for very resistant waste needs (models MST/9115 - 9121 - 9315 - 9321)
- Equipped with an ideal prewash area for the most persistent waste (except models MST/9015 and MST/9021)
- Double-rinsing area to facilitate disinfection and drying of dishes (models MST/9315 and MST/9321)
- They may be equipped with wash inlet and outlet equipment.
- Work areas separated by curtains that prevent the mixing of water and detergents.

- Trains de lavage modulaires construits totalement en acier inoxydable.

- Zone de PRÉLAVAGE parfaite pour besoins de déchets très résistants (modèles MST/9115 - 9121 - 9315 - 9321)
- Équipés avec une zone de prélavage idéale pour les résidus les plus persistants (sauf modèles MST/9015 et MST/9021)
- Zone de double rinçage pour faciliter la désinfection et le séchage de la vaisselle (modèles MST/9315 et MST/9321)
 - Peuvent être pourvus d'équipements d'entrée et de sortie du lavage.
- Zones de travail indépendantes séparées par des rideaux qui empêche le mélange des eaux et des détergents.

Electric fryers
Friteuses électriques

Deep fryers without tap (FRE) - fryers with tap (FRE-V)

Friteuses sans robinet (FRE) - Friteuses avec robinet (FRE-V)

- Heating element-holder header easily removable for cleaning.
- 18/8 stainless steel shielded heating elements.
- Safety microswitch in heating element header.
- Lid and basket included.
- **FRE-V SERIES:** Fitted with drainage tap.

- Tête porte-résistance facilement extractible pour son nettoyage.
- Résistances blindées en acier inoxydable 18/8.
- Microrupteur de sécurité sur la tête de la résistance.
- Couvercle et panier inclus.
- **SÉRIE FRE-V :** Dotées de robinet de vidange.
